D Devish

Bangalore, India | 9542241480 |Gmail |Linktree| Portfolio

With an Electronics and Communication Engineering background, I leverage expertise in SQL, Python, and data visualization tools (Power BI, Tableau) to drive business insights. Transitioning from a business associate role, I have developed a unique blend of technical and business acumen, enabling me to craft compelling stories from complex data. My analytical thinking, problem-solving, and decision-making skills allow me to tackle challenges and continuously expand my expertise in data analytics.

TECHNICAL SKILLS

- Power BI Desktop
- Power Query
- DAX
- Advance Excel
- Python
- SQL
- MySQL
- Machine Learning
- EDA
- Tableau
- Linux OS
- AWS
- Data Cleaning
- Data Visualization
- Data Modeling
- Data Storytelling

WORK EXPERIENCE

Data Analytics and Visualization | Accenture(Virtual Internship from Forage) **11/2024 – 12/2024**

- Compiled data from client in raw excel format or from sharepoint ; increased analysis by 50% by using pivot table & Vlookup.
- Directed teams in coordinating efforts to address billing issues, facilitate payment discussions, and achieved a 15 % improvement in client satisfaction.

Tools used: *MS Excel, Vlookup, Pivot Table,Pivot charts.*

Data Analyst Intern | Ai Variant , Bengaluru **08/2024 – 11/2024**

- Compiled data from client in raw excel format or from sharepoint ; increased analysis by 50% by using pivot table & Vlookup.
- Designed power bi dashboard for financial claims portfolio of 200+ client accounts to review the KPI; results in 25% improvement in collection rates and 30% reduction in claim denial rates, leading to faster revenue recognition

Tools used: *Power BI desktop, Power BI service, Power query, DAX function, Vlookup, Pivot Table, Pivot Table, Power BI, MYSQL.*

PROJECTS

Logistic And Supply Chain Analysis | Power BI | SQL | Link

- Analysed dataset of 240000+ orders in 160+ cities, which shows delivery of products at Ontime, fast & late .
- Crafted Power BI reports for logistic a & supply chain company performance by using Power Query, Charts and DAX for calculations.
- Resulting in 58 % increase in Ontime delivery & 18% reduction in late delivery & 60% of reduction in products return.

Finance Analysis | Power BI | Link

- Built an overview report of sales and profit trends insight into top 5 selling and profitable sub-categories across 4 years.
- Used Power Query Editor for data cleaning, DAX for measures & visualization with charts, cards, table & filter.

E-commerce Sales Analysis | Excel | Link

- Leveraged airline dataset to optimize travel operations, Analyse busiest routes, ticket sales, & enhance the booking experience; resulting in 25% increase in revenue collection & 15% reduction in customer complaints.

Bitcoin Price Prediction| Python | Machine Learning| EDA | Link

- The accuracy achieved by the state-of-the-art ML model is no better than simply guessing with a probability of 54%.
- Analysing dataset ,data cleaning, charts , time series analysis of crypto currency ,heat maps. Logistic Regression predicts 50% accuracy & XGBoost predicts 65% accuracy.

EDUCATION

Bachelor of Engineering in Electronics And Communication **01/2021 – 06/2024**

Sreenivasa Institute of Technology & Management Studies

8.41/CGPA

Intermediate (MPC) **06/2018 – 04/2020**

Vivekanandha Junior Collage

8.41/CGPA

COURSEWORK

- Business Analyst – EXCELR
- HackerRank – SQL(Advanced)
- AWS – EXCELR

ACHIEVEMENTS

- Microsoft Certified: Power BI Data Analyst Associate.
- HackerRank – SQL gold badge.
